

## Essay on Career Choice

Modern society has grown increasingly complex, and the choice of a career correspondingly difficult. Specialisation has developed to such a degree that every major profession has produced a proliferation of specialisations. A discipline which the Greeks placidly called 'Philosophy' has grown into a hydra with many heads. Social Science, History, and many more subjects with such a multiplicity of avenues, the confusion which faces a student attempting to decide on a career is great indeed.

### My Career Choice Essay

Training for each career is such a lengthy affair that it is impossible to change horses in mid-stream. For certain people, the decision is not much of a dilemma. The boy who sat sticking labels on bottles grew up into the Charles Dickens we know of. The Profligate John Donne matured into the Metaphysical Poet.

There are people who work throughout life with a single determination. At the other end, the mentally deficient person has no dilemma to face. His options are limited to his capabilities. Finally, these with an accepted family profession have little need for worry. A business- man's son can always opt for business, at a more sophisticated level perhaps but nevertheless, the family occupation social class tends to limit them options to a degree the statistical probability of a labourer's son becoming a businessman or his daughter becoming a doctor is bleak.

## My Career Plan Essay

Finally, those with an accepted family profession have little need for worry. A businessman's son can always opt for business, at a more sophisticated level, perhaps but nevertheless the family occupation. Social class tends to limit the option to a degree. The statistical probability of a labourer's son becoming a business man or his daughter becoming a doctor is black.

## Career Plan Example Essay

But for the vast majority of educated youth, the dilemma is real and often terrifying. One can opt to be a doctor just as one can become a lawyer. There are professions which promise security. An administrator or a government official is confident of his future. He gets his promotions and increments with the passage of time and eventually retires with a secure pension. But the opportunities for starting leaps in life, like risks are virtually non-existent. A lecturer's existence is placed and sedate with the ease of long holidays thrown in.

## Choosing The Right Career

There are professions which are fraught with excitement and challenge. A journalist can rise to dizzy heights and threaten immortality in high places, or fade into obscurity like untold numbers of writers. It is only the adventurous, confident or the conceited who opt for such careers. Business is traditionally the most risky of all careers. It requires the person to stake all his hopes

on the profession.

## Speech on Career of My Dreams

A relatively recent phenomenon is the competitive examinations, on the basis which people are selected for various professions like the Indian Administrative Services. Banking government posts like clerks, assistants, etc. The logic of such procedures may be doubted because a person with 55% may be more intelligent than one with the required 60%, but it is a procedure hesitated by the large numbers of young graduates who seek jobs.

## Essay on My Career My Life

Each profession has its own disadvantages to the person, who has not decided on his, career. To a decisive person, these disadvantages fade into inconsequence beside the advantages. But for most people, the decision of a career requires balancing various aspects and on the basis of this analysis choosing one. The factors may be the security, the monetary gains, the adventure or the satisfaction offered by each career. Ultimately it is one's temperament which has a say in choosing one.

Choosing a career is undoubtedly, a difficult piece of work these days. However, the choice has to be made and the best use made of that choice.
